# Experience the Difference

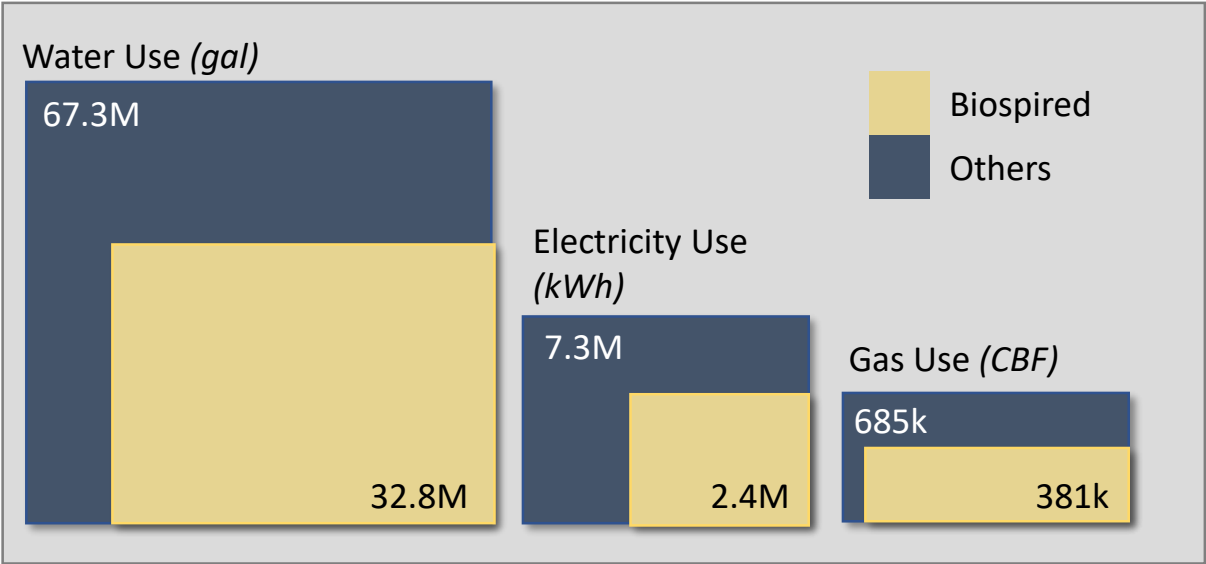

*Better Microfiber Production Means a Better Environment.*

Biospired Fitness and Outdoor towels use a lot of microfiber. **But the way we make our microfiber is what sets us apart.**

## Savings to the Environment:

35.5M Gallons of Water

37.5M LBS of Carbon Emissions

Biospired is part of Tricol Group which proudly institutes water-saving techniques in the production of our Intelligent Microfibers that power every Biospired towel. Using injection dye methods, we avoid using excess water and energy consumption, and each towel contributes to this effort.
