NON-STICK LINERS

Make cooking, baking and grilling cleanup a snap!

HEAVY DUTY & REUSABLE • PFOA FREE • HIGH TEMPERATURE COOKING TO 550° F

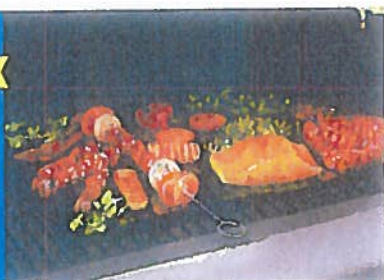

HEAVY DUTY NON-STICK TOASTER OVEN LINER

Place in the drip tray of toaster oven to keep the bottom of your toaster oven clean. Simple and easy clean-up of messy spills and bubble overs.

- Reusable/reversible and dishwasher safe.
- Size 9" x 11" that can be easily cut to custom size.
- Fits most larger toaster ovens.
- PFOA free non-stick coated fabric.
- After use, wipe clean with a damp cloth or wash in warm soapy water.

HEAVY DUTY NON-STICK BBQ GRILL MAT

Ideal for hard to grill food items and keeps your grill marks. Food won't stick to the coated and easy to clean fabric. Heavy duty reusable and reversible.

- Reusable/reversible.
- Alternate to aluminum foil that can be easily cut to custom size.
- 100% non-stick fat free cooking. Ideal for cooking sea food or fish.
- PFOA free non-stick coated fabric.
- After use, wipe clean with a damp cloth or wash in warm soapy water.

HEAVY DUTY NON-STICK OVEN LINER

Place on the bottom of the oven to protect it from spills and bubble overs. Food won't stick to the coated and easy to clean fabric.

- Reusable/reversible and dishwasher safe.
- Size 23" x 16 1/4" that can be easily cut to custom size.
- Fits ovens up to 30".
- PFOA free non-stick coated fabric.
- After use, wipe clean with a damp cloth or wash in warm soapy water.

HEAVY DUTY NON-STICK COOKIE BAKE SHEET

Place in baking pan to bake cakes, cookies, and pastries. Bake, warm, and defrost food directly on the reusable non-stick sheet that holds no odor or flavor.

- Reusable/reversible and easily cut to custom size.
- Fits cooking sheets, tins, and pans up to 12" x 16".
- Replaces the use of parchment paper.
- PFOA free non-stick coated fabric.
- After use, wipe clean with a damp cloth or wash in warm soapy water.

Assembled in the USA with U.S. and foreign components. Not for commercial Use.

STANCO
**Grease Strainer
and Cup**

Item # GS1200

**Grease Strainer Cup
and Lid is economical
“Value Priced” like
all Stanco’s Products.**

- Easily removes food particles from your grease
- Add flavor to your food
- Save money by reusing grease rather than buying expensive oils and shortenings
- Can withstand hotter temperatures than leading plastic containers, hot grease can void warranties
- Never put grease down disposals or drains, it can cause clogs in plumbing

Stanco Grease Strainer Cup and Lid

- Solid aluminum design
- UPC Coded for your convenience
- Compact unit with cover
- Clean and store your grease in one container
- Recyclable aluminum for all three pieces

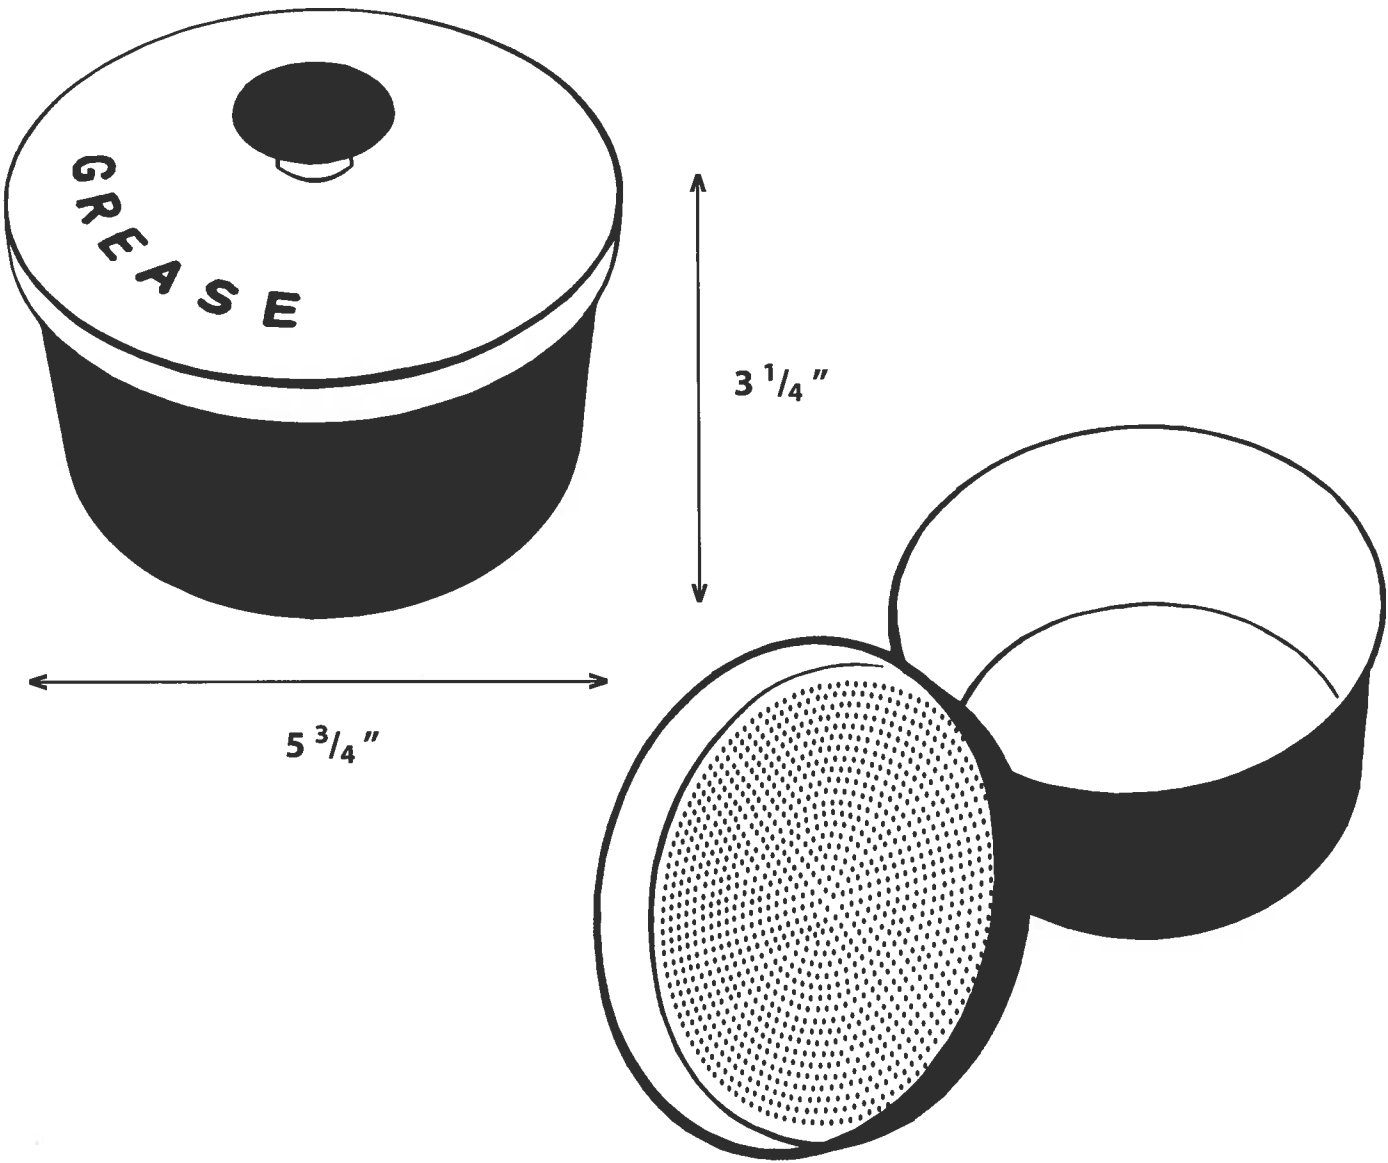

Stanco's Light Weight Aluminum Grease Strainer and Cup removes food particles and allows you to store your grease (drippings) in one convenient container. This good looking unit is made from solid light weight aluminum and is recyclable.

The Strainer has a rolled edge allowing for easier placement over the storage cup. It has been manufactured with full perforations from center to edge of the recessed area, allowing a larger area to “strain” the grease.

The Cup features black painted sides and a rolled top edge. This rolled edge makes a smooth top and a thicker edge to receive the strainer.

The Lid allows you to cover the unit, keeping other airborne contaminants out and hiding the grease/food particles trapped in the strainer. The top is aluminum with the word “grease” embossed in the metal and a black knob matching the sides of the cup.

Item #GS1200 Stanco Grease Strainer
