About WBM International

WBM International is the Brand for Himalayan Pink Salt. We are the largest manufacturer, exporter and importer of this ancient salt. Our array of products extends from edible salt and salt lamps to decorative fans, flameless candles, and fireplace heaters.

Our headquarters are in Flemington, NJ, where we distribute nation wide. We began as a small company selling salt lamps to health and natural food stores, and have grown to a complete solution company which mines the salt, makes the lamps, exports and distributes to accounts ranging from Bed Bath & Beyond and Target to Zelda's Holistic Healing period We sell from niche to mainstream. Our Himalayan Pink table salt is showing similar signs of growth. It is the healthiest salt in the world--it's unprocessed, with its 84 minerals remaining intact, and with no added chemicals. It was awarded Best Tasting Salt in the World. We donate a portion of our profits through the WBM International Foundation to protecting the environment and education people on the need to.

About Company

WBM International core values are deeply rooted in fair business proceedings, superior quality products, excellent service, a safe and healthy environment and respect for all people. We believe that every piece of product delivered should be top quality; therefore, all necessary quality controls are duly implemented. WBM International observes strict labor laws and is dedicated to producing products which meet the customers' satisfaction.

We make products that overlap into various industries, hence, our customers fall under the umbrella of health, beauty, decor, food and general houseware. Almost everything we produce is classified as natural and wholesome. We are stern about protecting the environment; hence, we produce within the bounds of ISO:1400-2004 and highly support the affidavit for a green environment.

WBM is the first salt lamp manufacturer in compliance with ISO:9001-2000, ISO 1400-2004, C-TPAT, ROHS, and HACCP specifications, and we highly support the affidavit for a green environment. WBM is also UL listed. With advanced equipment, independent departments of technological administration and testing, WBM products are in alliance with global standards and regulations.

Our Products

Himalayan Decor Salt lamps:

Himalayan Salt lamps and candleholders are made of natural crystal salt rock which when lit, provides a welcome and comforting pink orange glow, not dissimilar from a glowing coal from a fire. It is the ideal decorative lamp, which complements any home decor.

Himalayan Breeze Decorative Fans:

Himalayan Breeze is a new product line of decorative fans, made of artfully sculpted metal work that complements the décor of any room in the house. Its light weight and easy to operate features, combined with its unique retro finish, whether in antiqued bronze or chrome silver, or round fans hand painted glossy black or bold primary red, or whimsical themes such as animal decorative fans like dogs—a pug or a basset hound—a cat, rooster or frog—together form an eclectic line of trendy and distinctive looking fans with a designer's touch.

Fire Place Heaters :

Himalayan Heat 1500W electric fireplace heater Enjoy the comforts of home with the Himalayan Electric Fireplace Heater The Himalayan circular heater fireplace offers the instant ambiance of a traditional fireplace experience.

Himalayan Salt Candle Holders:

Whoever owns a salt lamp or candles holder usually owns two or three. It's not only an accent for the living room, but a night light for the bathroom, and a dimmable soft orange glow for the bedroom, as pleasant as candlelight, and perfect to go to sleep with. They are used in children's rooms, as a friendly light, especially while sleeping they are also used in doctors' offices, including the Mayo Clinic for convalescence, in restaurants and hotels, and in meditation and therapy rooms.

Natural Solution:

Salt detoxification is a natural health solution that rids the body of harmful toxins. Most toxic material is emitted through the skin or from the pores under the arms, and when artificial deodorants are used, the pores are blocked by chemicals which inhibit the body's ability to relieve and purge itself of these toxins.
