The environment is a concern to all of us and we've made changes to our products that recognize our commitment. Many of our products are made from our new ECONAT foam™, Natural Jute, 100% Cotton and Recycled Fibers.

Premium Quality products that work and make washing your car, van or truck not only fast and easy, but a pleasure.

THE ORIGINAL **AUTOMOP™**

Size: 8.5" X 4.75" X 2.5"
Item # 01-01141

The AUTOMOP™ is based on the principle of a mop that wipes and contours to your car as it traps loose road dirt, sand and grime between the grooves to protect clear coats and paint from being scratched during washing.

- Made from ECONAT Foam®, our new enviro soyfoam
- Super soft and pliable sponge which molds to all car surfaces
- Fast and easy
- Unique ECONAT Foam® makes loads of suds from a little soap
- Rinses easily, dries quickly
- Gets into hard to reach spots effortlessly

**CLEAN HANDS
"FAST & EASY"**

• NO SPLASHING • GENTLE ON HANDS & NAILS • EASY & FAST • IT LASTS

We learned from research that one of the most frustrating challenges is getting the hands and nails clean after a messy job. We were told the "daily grind of scrubbing the hands and nails and the irritated cuticles and red fingers" that resulted, was one of the worst parts of their day. The tendency for them to stop short of clean nails just because "enough is enough", was the reason we created the Clean'Em Hand Sponge.

THIS PRODUCT WAS DESIGNED FOR THOSE WHO USE THEIR HANDS

100%

ENVIRONMENTALLY COMMITTED

GREENING IT UP is our focus for new product development, *because it's the right thing to do.* The heart of our products is the raw materials we use and finding more earth friendly options is our commitment. ECONAT FOAM®, Natural Plant Pulp Cellulose, 100% Needlepoint Cotton, Rustic Jute, Recycled Cotton and our new Degradable Poly Packaging are among our many new materials.

GREEN MANUFACTURING

We believe GREEN MANUFACTURING is minimizing landfill waste, finding alternative markets for not to spec products and seconds, recycling and lean manufacturing. To these standards we have stood the test of time.

- 100% of our Foam waste is RECYCLED into carpet underlay
- 100% of our Not-to-Spec Products feed our Retail Value Bags
- We do not use pesticide Anti-Microbial agents in any of our foams
- No Toxic chemicals or cleaners are used in our manufacturing
- Our web is bonded with Natural Resins
- Most of our materials are manufactured in the USA or Canada in green safe facilities
- We are industry leaders in waste diversion
