Company profile

We are pleased to present to you our new selection for 2018

This catalogue contains the 150 bestsellers of our complete range which covers around 4,000 articles. The experience of 40 years of cooperation with the mail order business (catalogue, TV & Internet) has shown us that our ranges have become widely accepted and have succeeded in the market place in terms of their quality and volume of sales.

When looking through our catalogue you will notice that we don't look to offer an enlarged range of an individual product, but concentrate more on just one or two different models of an item. This allows us to be more focused on our ranges & select only individual lines that meet our customers' criteria.

We have offered the bestsellers of our two brands in colour packaging since 2012. The close relationship we have had with the mail order business has helped create some 'real gems', that we can now present to a broader public, by offering the distribution into retail stores.

We often select only certain items from our suppliers that can continue to meet our main criteria: Innovative, Handy and Useful products, with high sales potential and generous margins.

The numerous product ranges we offer are divided into two main categories:

- The first range - Genius Ideas® comprises of household aides and accessories to simplify daily life. These items which are often described as gadgets, are especially of favour with customers who are always keen on the latest novelties.
- The second range - Welllys® comprises of our beauty and well-being products as well as our range of goods designed to assist the elderly. Since the mail order business originally addressed an older target group, we were able to gain widespread experience in terms of a successful assortment of products for the elderly & infirm. By now offering these ranges to the retail sector, we are able to make a lot of these unknown lines available to a much larger consumer group.

For this reason, GD Import has come up with many 'Promotional Sales Solutions' for your POS: Attractive Colour Packaging, Various Countertop Displays, Presentation Boards, Stand-up Displays for quarter and full pallets as well as Video Displays. All you need to do is just choose the most favourable POS solution for your business.

Thanks to our strong global network our group supplies to every continent across the globe, in part from our stocks we have warehoused locally, as well as direct from our production sites.

As a regular global exhibitor, you will find us at many events including the following international shows:

- Hong Kong - Houseware HKTDC, Mega Show Kenfair
- Germany - Ambiente in Frankfurt
- United Kingdom - Autumn/Spring Fair NEC Birmingham
- USA - Houseware Chicago
- Additionally we can be found on various partner booths at many other shows.

Our network enables us to create and develop our own products and to ensure an exclusive distribution of individual articles across a wide global area.

Contact us and benefit from an assortment of around nearly 1,000 novelties we present every year. Whether a new customer or an exclusive agent, we look forward to hearing from you!
