NUKING MY FOOD TASTES GREAT.

SAID NO ONE EVER.

Give your customers a healthier, more convenient alternative to warming their food. HOTLOGIC® Food Warming Totes and Appliances use a Smart Shelf Heating Platform to bring food to the ideal temperature and hold it there for hours without overcooking. Simply put food in, go about your day and eat when you're ready. It's time you drop the mic and heat happier with HOTLOGIC.

DING. THE MICROWAVE IS DONE.
Say goodbye to food splatter, standing in line, cold centers, and burnt edges. Heat food perfectly without overcooking.

HOT FOOD ON-THE-GO
Enjoy leftovers, frozen entrees and prepared meals anywhere. Perfect for the office, home, dorm, job site, and campsite.

FITS TODAY'S HEALTHY LIFESTYLE
Consumers are craving healthy alternatives to eating out and microwaved food.

HOTLOGIC Mini

This portable food warmer is ideal for lunch at the office, parties and potlucks, and home kitchen use. It evenly cooks or reheats fresh or frozen meats and vegetables—even leftovers—without burning or drying your food. Using Smart Shelf heating technology, it brings your food to the ideal temperature—and holds it there until you're ready, whether that's in two hours or twelve. There's no monitoring needed; just place your meal inside, plug it in, and go about your day.

HOTLOGIC Appliance | 4 Shelf

HOTLOGIC® 4 is perfect for a small office or family kitchen. Using a Smart Shelf heating technology, HOTLOGIC® 4 cooks up to 4 individual meals at once. This revolutionary oven will save you time and money as it uses less energy than a microwave to heat your meal. It's also more sanitary than a microwave because meals are cooked in a sealed container and the slow, even heating eliminates splatter and exploding food.

HOTLOGIC Appliance | 8 shelf

HOTLOGIC® 8 eliminates the long waits, the unsanitary conditions, the super hot, burnt edges and the frozen centers that come with the break room microwave. Using a Smart Shelf heating technology the HOTLOGIC® 8 cooks up to 8 individual meals at once. It heats the meal slowly and evenly, preserving the moisture and flavor of the food. Then it holds the meal at a hot, serving temperature for hours. Your meal is always moist, hot and ready to eat.
