About Chantal®

Founded in October 1971, Chantal Corporation is proud to be approaching 50 years of strength, determination and success.

CEO and founder, German-born Heida Thurlow, relocated to the United States in 1970 and soon began her entrepreneurial journey. Trained as an engineer, Ms. Thurlow has the distinction of being the first woman in the U.S. to launch and run a cookware company.

She has received numerous design and utility patents for teakettle and cookware design and innovation. Chantal was the first to bring dramatic color, tempered glass lids and stay-cool handles to the kitchenware marketplace and continues to dedicate itself to the creation of innovative products that bring elegance to the home.

Chantal products feature the healthiest cooking surfaces available today and we pledge to continually look for new innovations and manufacturing techniques which will be ideal for health conscious chefs.

When we are not innovating new and exciting products, we are always searching for ways to give back to the community. We have recently held food drives and toy drives to collect thousands of dollars' worth of donations for those in need. Chantal also actively supports the Houston based Women's Home that provides residential treatment and transitional guidance for women in need and their families.

Established in 1971
and Privately Owned
by **Heida Thurlow**.

PERFORMS. BEAUTIFULLY.

New Color Collections!

More consistency than ever before!

Color is king! Everyone is more prone to add something new to their home if it matches the color family and style they are already using at home. This goes for every room of the house but is sometimes never more important than in the kitchen. Chantal has never had more color consistency throughout our line. Whether the color is a stunning enamel finish or a rich glaze on ceramic, we work hard to ensure the colors of our products bring energy and life to the kitchen.

Sven

Scandinavian Collection

Teakettle with Natural Wood

Central to Chantal's Scandinavian Collection is the 1.4 quart Sven teakettle. Clean lines and natural wood help create a design that is distinctly northern European. The blond wood handle and knob are made of 100% natural Rubberwood, a tropical tree that grows in the warm climate of Asia. The wood stays cool to the touch when boiling water and the light color beautifully accents the enamel finish of the teakettle's body.

Perfect for all cooktops, **INCLUDING** magnetic induction.

Vintage Teakettle

Traditional Design Meets Contemporary Style.

A sought-after look inspired by traditional stove top kettle designs of the past which have matching enamel lids, the Vintage Teakettle is fresh with a classic twist. It has a black phenolic stay-cool grip and knob, a conical spout with one-tone whistle, and a wide opening lid for easy cleaning and filling.

Perfect for all cooktops, **INCLUDING** magnetic induction.

Oslo Eketle®

Cordless Electric Kettle

Central to Chantal's Scandinavian Collection is this 1.8 quart (56 oz, 7 cup) Oslo electric kettle. Clean lines and an angled resin handle printed with a blond wood pattern result in a design that is distinctly modern and northern European. A pronounced water level window makes it easy to know how much water remains in the kettle without removing the lid. Lid and handle both stay cool to the touch when boiling water.

Craft Coffee Accessories

Brew Your Own Coffee with This Uniquely Designed Collection!

- Brew exceptional coffee from home!

All Chantal ceramics are lead-safe, cadmium-safe, and meet FDA and CA Prop 65 requirements

"Pour-Over" Coffee Using Chantal's Lotus Ceramic Filter

Items needed:

- Chantal's Mia or Ryder Ekettle®
- Ceramic coffee filter
- Paper filter
- Mug, travel mug, or coffee pot
- Ground coffee

*Blooming coffee:

Freshly ground coffee when in contact with hot water will swell as it absorbs water. During this process, acidic gases are released and produce a smooth full bodied cup of coffee.

Step 1

Place ceramic filter on top of a preheated mug, coffee pot, or Travel Mug and place the filter paper into it.

Step 2

Add in your favorite fine coffee grounds (1.5 tbsp./10 g. per 4 oz. serving).

Step 3

Slowly pour a small amount of boiling water into the coffee grounds. Let it steep for 30 seconds to allow grounds to bloom*.

Step 4

Continue to slowly pour boiling water in a circular motion until desired serving size is reached. To ensure coffee does not over flow, view through the Lotus ceramic filter window. Enjoy!

Brewing instructions included.

chantalTM Induction 21 Steel[®]

Chantal's premium Stainless Steel cookware line has grown exponentially since its introduction to the market in 2016. The line features a stunning look and exceptional cooking performance. Made from unique Japanese Steel, this cookware offers something different for home chefs as well as professionals.

1 Made from 21/0 Stainless Steel, which Includes:

- **Copper** – conducts evenly
- **Titanium** – heats quickly
- **Chromium** – prevents corrosion

2 Ergonomic Handles That are Cool to the Touch

3 Tempered Glass Lids and Dripless Pouring Rims

4 Limited Lifetime Warranty on All Stainless Steel Pans (4 year warranty on nonstick pans)

5 Many Pieces are Available with a Healthy Ceramic Nonstick Coating:

- Made without **PFOA**, **PFOS** or **PTFE**
- Stovetop and oven safe up to 500°F
- Hand wash only
- New **FUSION** has a 4 year warranty!
- Fusion coating is manufactured by Whitford[®]

6 Perfect for All Cooktops:

- Gas
- Radiant (Electric)
- Induction

Perfect for Magnetic Induction!

Why It is the Best:

The Steel Cookware Body Contains:

- **Copper** (Conducts evenly)
- **Titanium** (heats quickly)
- **Chromium** (prevents corrosion)

Standard Stainless		chantal [®]	Metal Composition
18/0	18/10		
–	–	0.43%	Copper - Added for improved performance and better heat conductivity.
–	–	0.3%	Titanium - Added for strength and durability. Does not react with food.
16.1%	18.2%	21%	Chromium - Higher content for extra resistance to corrosion.
–	10%	–	Nickel - Removed as this allergen may leach during boiling.

Nickel Free - prevents Nickel allergies

Induction 21 Steel®

The Difference is in the Details!

- Brushed Stainless Steel Finish with polished accents
- Superior 21/0 Steel Composition has excellent heat distribution
- Ergonomic handles provide exceptional grip
- Flared rims for easy pouring
- Tempered Glass Lids – Chantal was the first company to bring these to market!

Cast-Iron

Traditional. Enamel.

Chantal's Enameled Cast-Iron Collection is produced using the most advanced techniques available today. Sand-Cast molds skillfully form each piece ensuring consistent thickness and shape. The result is a perfectly molded piece of cast-iron with exceptional heat retention. Three enamel coatings are applied to the interior and exterior of each piece. Enamel provides depth of color and is the healthiest cooking surface possible. Enameled cast-iron will cook similarly to traditional cast-iron but it will not have to be seasoned before use and cleanup has never been easier!

Premium Enamel on Top of Heavy Gauge Cast-Iron!

- Factory has produced high quality cast-iron cookware for over 40 years
- Sand-Cast molds skillfully form each piece ensuring consistency
- Durable top-grade enamel fired to create a truly unmatched finish
- Easy to clean, scratch resistant and will not react with or alter the taste of foods - **no need to be seasoned**
- Even heat while cooking. Oven safe up to 500° F / 260° C
- Performs on **Magnetic Induction** and all other cooktops

Cooking Tools

A Difference You Can Feel.

NEW!

Chantal's Stainless Steel kitchen tools are the ultimate in functionality, comfort and beauty. Manufactured with professional gauge stainless steel, these utensils will hold up to even the most aggressive chefs! The subtle curve of the handle fits perfectly into any size of hand and allows for effortless stirring, flipping and serving. The handles are filled with a special stay-cool cement and will not get hot even if the head of a utensil is left in boiling water or a hot pan. Dishwasher safe. 10 year warranty.
