

**Touch less,
do more.™**

Touchless Sensor Trash Cans

Innovative technology meets sophisticated design for easy to use, attractive waste receptacles. A simple hand gesture is all it takes. The calibrated infrared sensor technology activates the lid for 100% touch-free, quick, and hygienic waste disposal. See the full line at itouchless.com.

Versatility of Design

Multiple styles, shapes, and capacities, for every room in the house.

Motion Activated

Just the motion of your hand activates the lid. The calibrated sensor is smart – no closing the lid on your hand and no unintended opening.

Go Mobile

Mobility is key in cleaning up quick. Optional wheels make it easy to tidy up at parties and events.

Natural Carbon Odor Filter

Keep trash odors where they belong – in the trash. Replaceable, activated carbon filter absorbs and neutralizes trash odors.

Fingerprint-Proof Stainless Steel

Designed to look as good as it functions, the stainless steel is finished with a fingerprint-proof and smudge-resistant coating.

Energy Efficient

The lid motor's computer goes into 'sleep mode' until used, extending the life of the batteries to as much as two years.

Step Pedal Trash Cans

Designed to be as attractive as they are functional, these step pedal trash bins provide a sophisticated look matched with impeccable performance. From the smooth and easy pedal to the soft and silent lid close, these bins take the chore out of clean up. See the full line at itouchless.com.

Smooth Operator

The weight-balanced lid and pedal produce an ergonomic, low-effort step to operate.

Soft & Silent

The replaceable tension damper creates a gentle, quiet lid close.

A Thing of Beauty

The stainless steel finish and smooth lines complements any décor.

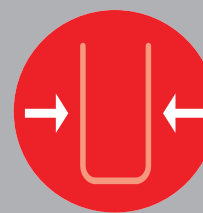

Fingerprint-Proof Stainless Steel

Designed to look as good as it functions, the stainless steel is finished with a fingerprint-proof and smudge-resistant coating.

Durable Pedal

The pedal and lifting mechanism are made of high-quality steel and designed to last for years of daily use.

Slim & Space-Saving

The slim body makes efficient use of space for a bin that is large capacity while consuming minimal floor space.

Open and Swing Top Trash Cans

For busy homes, restaurants, lobbies, and other high-traffic venues, iTouchless® offers a range of open and swing top trash cans for quick, clean disposals. These sturdy, space-saving bins feature premium extras like odor-trapping filters and air vents that ease removal of a full bag.

See the full line at itouchless.com.

Large Capacity

Holds a day's worth or more of trash, requiring less frequent emptying.

Easy Access

These stainless steel bins feature wide lid opening access for quick, on-the-go disposals that are mess-free.

Fingerprint-Proof Stainless Steel

Natural Carbon Odor Filter

Recycle and Compost

Sustainable home waste management is a significant way to positively affect the environment, and iTouchless® has the products to help. Our recycling and compost bins are designed to make ecologically friendly practices an easy part of each day.

See the full line at itouchless.com.

Odor & Pest Control

Compost bins feature a double layer of carbon filters to absorb odors and prevent fruit flies getting into the bin.

Everything in Place

Color-coded buckets make it easy to identify and separate trash and recyclables.

iTouchless® — the “touch less, do more” company.

Our technologically advanced waste receptacles and housewares are with you throughout your day — at home and at work — making daily chores quicker, easier, and more hygienic, so you can focus on the things that matter most.

iTouchless was the first to introduce the touchless, sensor-operated trash can to the U.S. market and we continue to release innovative home waste management solutions each year. We have expanded our line to include step pedal trash cans, recycling and composting bins, and a wide range of other intelligent housewares.
