

# Zwitscherbox

Your walk in the woods at home.

# Zwitscherbox

The perfect relaxation tool.

We live in a world of stress and restlessness. We can't change that, but we can create little moments of calmness and relaxation. Zwitscherbox will help you create such moments at home or at work. The jolly chirping of birds feels like a walk in the woods during the daily grind. It generates an atmosphere that makes you relax intuitively.

Zwitscherbox is a unique piece of design and a great gift. It's perfect for your bathroom or any place you feel you need a little time out every once in a while.

The Zwitscherbox comes with batteries and needs no electric cable. It can be placed anywhere or hung onto the wall. It will be activated by a motion sensor and fades out after two minutes. Volume can be adjusted or turned off.

Relax your mind and body – you'll need it out there!
