Table of Contents

Our Mission:

At Tribest, we strive to make the best small kitchen and home appliances designed for healthy lifestyles. We are continually pioneering new and innovative technologies that allow our customers to maximize their health naturally. Featuring the latest innovations in juicers, blenders, dehydrators, sprouters, and more, Tribest products make healthy living easy.

Worldwide Reputation:

Our brands are sold and recognized worldwide. Tribest products have gained a solid reputation of providing the latest developments in natural health. Our Greenstar juice extractors are reputedly the world's finest juicers, and continue to win numerous international awards. The Tribest Personal Blender was also the first of its type to enter into the United States market and has started the emergence of a new kitchen electrics subcategory – the single serving blender. Tribest continually introduces new products internationally that deliver uncompromising quality and new levels of performance.

Retailer Support:

We want your business to do well. Tribest offers merchandising materials for our entire line of products including:

- Demonstration videos
- Sales sheets
- Posters
- High-resolution photos for catalog houses and online retailers
- And much more

With most of our merchandising materials available at no charge, we make it easy for you to sell our products. We also offer drop-ship programs and can tailor them to suit your needs. Ask one of our helpful customer service professionals about how we can assist you.

We also support our brands with integrated national advertising and public relations campaigns to increase brand awareness and to drive consumers to your stores.

Sedona
FOOD DEHYDRATOR
SUPREME

The Tribest Sedona Supreme is the world's first full-featured large-capacity digital dehydrator with a reusable air filter. Use all 9 trays with the advanced dual-timer TST feature to get the best results for all your dehydrating needs.

Greenstar® Elite Tribest Jumbo Twin-Gear Slow Masticating Juicer

The only juicer you'll ever need!

For juicing fruits and vegetables of virtually every description, the Greenstar Juicer has no rival. From hard roots (carrots, ginger) to fibrous stalks (celery, rhubarb) to even the toughest leafy greens (kale, wheat grass), nothing is better at unleashing every drop of nutrition from fresh produce to boost your health, energy, and overall sense of well-being. All Greenstar models contain everything you'll need for easy juicing and food processing.

FEATURES

- Exclusive low-speed of 110 RPM, quiet, and heavy-duty Twin-Gear impeller press system operates with minimal noise, friction, and heat, preserving even the most fragile nutrients
- HD Twin-Gear Juicing Technology produces higher juice yield and enhances nutritional value of every drop
- Automatic pulp ejection for continuous juicing and easier clean-up
- Works as a food mill for preparation of baby foods, sorbets, and nut butters
- Model GS-2000 adds a coarse screen, stainless steel strainer, and drip tray for variable juice clarity
- Model GS-3000 adds Pasta Maker Set, Breadstick/Mochi Maker Set for the ultimate in versatility
- Easily juices most fruits, herbs & vegetables, and grinds nuts & grains.
- Balanced 'Sure Grip' Handle for easy carrying
- Convenient On/Off/Reverse three-way switch
- Easy to clean and assemble
- UL, CE, and TUV certified
- 5 Year Warranty for Greenstar Original and Gold
- 12 Year Warranty for the Greenstar Elite

Nothing Beats the Original

Greenstar's Twin Gear juicing system has 5 important features that ordinary dual-gear juicers do not.

New dual-gear juicers are appearing on the market that attempt to portray themselves as technological advancements over the Greenstar. However, Greenstar remains the best twin gear juicer because the imitation juicers do not have these important design features.

1. Pocket Recesses: In order to reduce overall strain on the motor and extend the Greenstar's operating life, the teeth of the Twin Gears were designed with special pocket recesses to process harder vegetables more efficiently and easily.

2. Cutting Points: The Greenstar's Twin Gears feature special cutting points on each of the gears, allowing it to extract juice more efficiently and to handle sinewy vegetables like celery without getting tangled or clogged.

3. Pressure Adjusting Mechanism: Greenstar allows you to easily adjust the amount of pressure that is exerted inside the juicing chamber in order to effectively handle a wider variety of produce without jamming or clogging.

4. Nylon Safety Buffer: Unlike ordinary dual-gear juicers, Greenstar's Twin Gears feature a nylon safety buffer to prevent steel shavings from inadvertently entering your juice by keeping the stainless-steel gears separated by a margin of 4/1000 of an inch at all times during operation.

5. Exclusive Magnetic & Bioceramic Technology: The magnetic and bioceramic technology found only in the Greenstar yields juice of exceptional nutritional quality and delays oxidation – allowing your juice to remain fresh longer.

Greenstar Pro[®] Tribest Commercial Juicer

The Best Juicer for your Home is now ready for your Juice Bar!

With the Greenstar Pro, you can juice a wider variety of fruits and vegetables—from carrots and apples, to wheatgrass and pine needles, all without having to stop and change any parts! You can also use your Greenstar Pro Commercial Juicer to make other delicious foods, such as, baby foods, breadsticks, nut butters, pâtés, frozen fruit sorbets, and much more!

The Greenstar Pro Commercial Juicer unleashes the very best nutrition that nature has to offer, utilizing advanced All Stainless-Steel Jumbo Twin Gears to get the most out of all your fruits and vegetables. The unique shape of Greenstar Pro's Jumbo Twin Gears extracts more juice and performs better than other Twin Gear juicers. The new twin gears are coupled with other design improvements that make Greenstar Elite easier to set up, easier to use, and easier to clean than ever before.

The All Stainless-Steel Jumbo Twin Gears are an advanced impeller press system that rotates at a low 110 rpm and generates minimal heat while juicing. The Greenstar Pro also has magnetic and bioceramic technology embedded in the Jumbo Twin Gears that produces fresher juice that can be stored longer, with minimal loss of the precious enzyme and vitamin content in the juice. The magnetic and bioceramic technology contained within the Jumbo Twin Gears helps stabilize your fresh juices, allowing for longer storage times with less enzyme and nutrient loss.

FEATURES

- All Stainless Steel Heavy-Duty Twin Gears
- Exclusive Bioceramic & Magnetic Technology: Yields juice of exceptional nutritional quality and delays oxidation – allowing your juice to remain fresh longer
- Cutting Points: Allows for more efficient juicing and prevents clogging that may occur when juicing sinewy vegetables like celery
- Pocket Recesses: Aids in processing harder vegetables and reduces overall strain on the motor
- Commercial Certification
- 3 Year Warranty for Commercial Use
- 15 Year Warranty for Household Use

Best in its class 2-in-1 slow juicer & mincer with Duoblade™ Auger

Slowstar is a quiet single auger juicer that slowly and easily juices your favorite fruits and vegetables from apples and oranges to carrots and leafy greens. The Slowstar has a low speed of 47 RPM with a 200 Watt motor and 3-stage speed reduction gears resulting in the equivalent torque as a 9 HP motor. The Slowstar creates more than twice the power compared to similar slow juicers that run at 80 RPM with a 150 watt motor, which produces the torque of a 4 HP motor. The low 47 RPM ensures you will not lose the freshness, quality, and enzymes in your juice due to friction and heat.

The Duoblade Double-Edged Auger makes it possible for the Slowstar to rapidly cut and juice your produce at a low speed for higher yields and reduction of pulp in the juice. The Mincing Attachment turns the Slowstar into a multi-purpose tool that allows you to create your favorite recipes like sorbets, nut butters, pâté, and sauces.

Whether you are juicing your favorite fruits and vegetables or using the Mincing Attachment to make sauces or sorbets, the Slowstar is the perfect solution to get the most out of your produce.

FEATURES

- Low Speed of 47 RPM
- Duoblade™ Double-Edged Ultem Auger
- Easily converts from Juicer to Mincer
- 3-Stage Speed Reduction Gears with 200 Watt Motor
- Torque power equivalent to 9 HP Motor
- 100% BPA-Free Housing & Casing
- Virtually BPA-Free Ultem Auger & Screen
- Quiet Operation
- 10 Year Warranty

Juice Cap Included

Prevents leaks and drips while switching juice containers. Closing the juice outlet also allows pre-mixing of the juices, if desired.

Solostar 4[®] Tribest Horizontal Slow Masticating Juicer

More Power, Less Electricity

Due to its smart design, the Solostar 4 crushes the competition by producing 26% more torque while using 10% less electricity. It has a gear reduction equivalent of a 5.4 HP motor. More torque means less jamming and less electricity means savings on your electric bill and your carbon footprint. You get additional savings by lowering your grocery bill, because the Solostar 4 produces up to 40% more juice from your favorite fruits and vegetables. The sleek, compact, and modern design takes up less space while looking beautiful on your kitchen countertop. And, since all food contact parts are made from BPA- and BPS-free materials, you don't have to worry about exposing your family to harmful chemicals. Each Solostar 4 also comes with a standard 15 year warranty, the longest warranty of its kind in the industry. At only 57 RPM, the Solostar 4 is the slowest and gentlest horizontal single auger juicer on the market. The slow and gentle juicing process virtually eliminates all heat and oxidation, preserving more essential nutrients and live enzymes. This results in healthier, nutrient-dense juice. The class-leading auger size and Dual-Stage Extraction Process produce maximum juice yields. The Ultem auger is also 8x stronger than other types of plastic, which allows for an aggressive auger design that makes it easy to feed your produce into the juicer. So, you get better juice, more of it, and it's easier to use.

FEATURES

- More Juice- Dual stage extraction and larger auger means more surface area to maximize yields
- More Enzymes, Vitamins, and Minerals- Extremely low speed of 57 RPM to prevent heat and oxidation
- Less Jamming- Gear reduction equivalent of a 5.4 HP motor with 26% more torque
- More Kitchen Space- Compact, sleek, and intelligent design with smaller footprint
- More Savings- 10% less electricity consumption and higher yields means more savings at the register
- BPA-Free Materials- All food contact parts are made from BPA- and BPS-free materials
- Zstar Compatibility- Compatible with the Tribest Zstar Manual Conversion Kit so you can take juicing on-the-go
- 15 Year Warranty- Longest warranty of its kind in the industry

Lightweight, portable, versatile, and works without electricity, so you can enjoy fresh juice wherever you go!

Wheatgrass contains some of the highest concentrations of vitamins, minerals, and nutrients in comparison to other fruits and vegetables. It is also one of nature's richest sources of chlorophyll and hundreds of other live enzymes. Until recently, obtaining the juice from this miracle plant required purchasing expensive juicers or making a trip to your local juice bar to buy a shot.

Now with the Zstar Z-710 Manual Juicer, Tribest makes it affordable to be able to juice wheatgrass at home, or on the go. The Z-710 features an Ultem juicing screen and auger and is virtually BPA-free. The unique single auger design uses an extremely gentle and efficient process to extract more high quality juice from each blade of wheatgrass, without electric power. Not only can it juice wheatgrass, the Zstar Manual Juicer can also extract great tasting and nutritious juice from a variety of fresh fruits, vegetables, and leafy greens. The Zstar Z-710 Manual Juicer is lightweight, portable, and versatile, so you can enjoy fresh juice wherever you go!

SPECIFICATION

Model #Z-710

Type	Manual Juicer	Weight	7.6 lbs.
Measurement	14.5"L x 4.3"W x 13.3"D	Warranty	1 year

ZSTAR ACCESSORIES

Zstar Conversion Kit

There's no need to sacrifice your ability to make fresh fruit and vegetable juices when you're on the road or when electricity is not available. The Tribest Zstar conversion kit is the perfect solution for those who already have the Solostar but also need the portability of a manual juice extractor. The Zstar conversion kit can be used with the juicing parts from the Tribest Solostar or from most other single auger juicers, and contains everything you need to turn your ordinary single auger juicer into a compact, manual juicer.

The quiet yet powerful citrus juicer!

Citristar can start you on your way to better health. With minimal time and effort, Citristar extracts extremely beneficial juice for you and your entire family. The Citristar's unique, high-clearance, stainless steel spout prevents clogging and ensures continuous operation. The quiet yet powerful motor makes quick work of all your favorite citrus fruits, making Citristar the perfect appliance for all your citrus juicing needs.

ARI AND NOAH, THE SPROUT BROS.

Sprouts aren't just a garnish. They're some of the most versatile foods around. A nutritious salad base Mix varieties like daikon radish, broccoli blend, and our salad mix for a flavorful combo

- Blend into green smoothies for a potent punch.
- Sprout garbanzo beans for a delicious sprouted hummus.
- Bake into breads and muffins, or even make sprouted wheat pizza!
- Sauté sprouted beans to make nutrient-rich stir frys and taco fillings.

For recipes visit their site at www.sproutman.com

Choose the best blender for your needs!

Versatile and portable for today's busy lifestyle, the Tribest Personal Blender allows you and your family to blend multiple drinks without having to stop and clean a bulky blending jar for each recipe. Blend and serve your own individual drink right in your own individual container and take it to go with a secure and convenient lid. There's no extra mess to clean up and everyone gets just what they want. In under a minute, life just got a whole lot tastier!

Tribest is proud to offer blending and grinding cups made from Eastman Tritan™ copolyester – a new generation copolyester offering higher temperature resistance, higher impact resistance, and most importantly free of Bisphenol-A.

FEATURES

- Available in 5 packages, ranging from our easy blend model (PB-150), to our complete blender and grinding package (PB-250), and complete Mason Jar Set (PB-350), we have a blending package that will suit your lifestyle and needs
- Blending/Grinding Blades completely enclosed during operation, makes it impossible to come in contact with spinning blades. Advanced safety features prevent operation when the blades are not completely enclosed
- Powerful 200 Watt motor easily blends all your favorite ingredients, including ice, and grinds all your grains, nuts, and seeds
- Blend-n-Serve cups are made entirely out of BPA-Free materials that ensures you drink your smoothies without worry
- 2 modes of operation, one touch pulse and press and twist continuous modes for blending and grinding to that perfect consistency
- 1 Year Warranty

Glass Personal Blender®

Tribest Glass Single-Serving Blender

PBG-5050 Glass Personal Blender

The new Tribest Personal Blender PBG-5050 makes clean blending easy and portable. The stainless steel blade assembly and tempered glass containers ensure that there is zero food contact with plastic. There is zero worry about any plasticizers or harmful chemicals leaching into your favorite recipe while you store it or take it with you. The Variable Speed Dial gives you maximum control and the 1-Touch Pulse Button makes it easy for you to reach your desired texture. The Stainless Steel Blade Assembly comes apart for easy cleaning and is dishwasher safe. The PBG-5050 includes an 8 oz., 16 oz., and 24 oz. glass container to take care of all your on-the-go blending needs. You can also add the optional 42 oz. glass container for bigger blending jobs.

FEATURES

- Sturdy Tempered Glass Containers
- Stainless Steel Blade Assembly comes apart for easy cleaning
- Variable Speed Dial for maximum control
- Easy One-Touch Pulse Button
- Polished and Sleek Design
- Safety Switch
- Dishwasher Safe
- 3 Year Warranty
- Includes:
 - (1) 24 oz. Tempered Glass Container
 - (1) 16 oz. Tempered Glass Container
 - (1) 8 oz. Tempered Glass Container
 - (2) Silicone-Lined Commuter Lids
 - (1) Silicone-Lined Storage Lid

PBG-5001 Glass Personal Vacuum Blender

Tribest takes Vacuum Blending personally. The Glass Personal Vacuum Blender PBG-5001 adds the flavor, texture, and nutrient preserving properties of Vacuum Blending to the versatility and ease of use of Personal Blending. By removing the air in the container and blending in a vacuum, oxidation of your ingredients is reduced and flavors and nutrients are preserved. Stop oxidizing your anti-oxidants. The tempered glass containers and stainless steel blending assembly ensures that there is no food contact with plastic. Even the storage lids are lined with silicone to ensure that there are no chemicals leaching into your food during blending and storage. All you get is the pure, natural goodness of your favorite recipes.

FEATURES

- Clean Build- Glass containers, all stainless steel blade
- Blend & Go- Comes with 24 oz. and 42 oz. containers and a travel-friendly tumbler lid
- Long-lasting Food- Vacuums out the oxidative damage from your foods, pumps up the freshness and flavors instead
- Includes:
 - (1) 42 oz. Tempered Glass Container with Vacuum Lid
 - (1) 24 oz. Tempered Glass Container
 - (1) Vacuum Pump
 - (1) Silicone-Lined Commuter Lid

Tribest High Power Home Blender **Dynablend® Clean**

High Performance Built Clean

The Dynablend Clean High Power Home Blender is the perfect blend of high performance and clean materials. The 1.1 HP motor powers through all your toughest blending jobs while the tempered glass and stainless steel construction helps avoid food contact with plastic. Designed with a Variable Speed Dial and 3 Pre-Programmed Buttons for precision control that is easy to use. The innovative 30-second pulse mode prevents the blades from creating air pockets, while the 60-second blend mode gives you one-touch convenience when making simple recipes. Use the additional 60-second combo mode for even tougher blending jobs.

SPECIFICATION

Model #DB-950			
Type	High Power Home Blender	Weight	12.6 lbs.
Motor Power	1.1 Horsepower	Measurement	8"L x 6.5"W x 16" D
Warranty	10 years		

3 Ways to Use Your Stainless Steel Scoop!

1. ADD

Use it to add ingredient like honey and oils while you blend. The scoop measures out 1 tablespoon so it makes it easy for you to get the recipe right.

2. STIR/MIX

Stir as you blend thicker mixes like nut butters frozen sorbets. Don't worry! The scoop is designed so that it never touches the blades.

3. PUSH

Some recipes need a little push. Use the scoop to push down tough leafy greens like kale.

DB-950 ACCESSORIES

- Includes Silicone Lids (2) for absolutely no food contact with plastic while blending.

FEATURES

- 23,000 RPM max speed
- 1.1 Horsepower Motor
- Tempered Glass Pitcher
- Stainless Steel Utility Scoop
- Stainless Steel Blade Assembly
- Stainless Steel Motor Clutch
- Variable Speed from low to high
- 3 convenient Automatic Settings
- 10 Year Warranty

Pro Features Including Vacuum Blend

The Dynapro features a powerful 2.5 HP motor, integrated 4-spoke blending blade, a large 64 oz. container, and a vacuum blend option. The Dynapro Vacuum Lid is designed to work with the included handheld Vacuum Pump, to reduce oxidation by removing air before blending. With less oxidation, you can enjoy more nutrients and enhanced flavors in your smoothies. The Dynapro's blending container includes a unique thermochromatic ink raw temperature indicator that helps you maintain a raw temperature in your blend. The blue mark changes to white at 118°F and above. The Dynapro offers unparalleled convenience with 3 modes of operation: manual, countdown timer, and 3 one-touch preset buttons, as well as a variable speed dial for total control over your blend.

FEATURES

- 2.5 Peak HP Motor
- Large 64 oz. BPA-Free Container
- Vacuum Lid with Handheld Vacuum Pump
- 3 Operating Modes:
 1. Variable Speed Dial
 2. Countdown Timer
 3. One-Touch Preset Buttons: Blend / Pulse / Combo
- Raw Temperature Indicator- Blue mark changes to white at 118°F and above
- Integrated 4-Spoke Blending Blade
- Quiet Ventilation Design
- Backlit LCD Display
- Includes Stainless Steel Utility Scoop
- Commercial Certification
- 3 Year Warranty (Commercial), 15 Year Warranty (Household)

Blue star indicates Below 118 degrees

Changes to white at 118 degrees and above

WING LAM, FOUNDER WAHOO'S FISH TACOS

"The Dynapro's innovative vacuum seal makes it easy to blend more flavorful salsas that are rich & creamy. Less oxidation in the blend means that I get great colors and the best fresh flavors from my spices every time I blend. It's high horse power motor is great for all of our heavy blending needs and allows us to make a large volume of salsas fast and easy."

An advanced digitally controlled 9 tray food dehydration system!

Sedona is the elegantly easy way to dehydrate raw whole living foods, preserving the natural nutritional value and taste without using artificial preservatives. Compared to other leading dehydrators, Sedona offers stunning features like the see through glass door and unsurpassed performance utilizing the latest digital dehydrating technologies with accurate temperature controls.

FEATURES

- Never overheats above set temperature
- BPA-Free trays and mesh screens
- No black coloring chemical used for food touching parts
- PTFE-Free, BPA-Free, Non-stick drying sheets
- Built-In Timer for up to 99 hours
- Digital Display and setting for easy control
- LED Light Display for dark environment
- On/Off Switch for no need to unplug every time
- See-through Glass Door to see inside without opening
- Pause and Reinstate Function with glass door open and close
- Convenient Pull-down Glass Door Hinge
- Temperature mode selection for °F or °C
- Debris catching Closed Tray for easy cleaning
- Energy efficient with Dual Fan Technology

SEDONA'S OVERHEAT PROTECTION FEATURE

The Sedona dehydrator's built-in Overheat Protection Feature prevents enzyme degradation by allowing you to set maximum temperatures instead of average temperatures. This ensures that the internal temperature of the Sedona will never go above your set temperature. Get enzyme-packed and nutrient-dense dehydrated foods every time!

Sedona® Combo Tribest Food Dehydrator

Innovative Two-Stage Temperature-Timer (TST) adds even more convenience!

The Sedona Combo Food Dehydrator still holds all the benefits of the original Sedona model, while offering upgraded features. It uses the same dual fan technology that provides quiet operation, energy efficiency, and well-balanced distribution of airflow throughout the nine BPA-free trays. The digital thermostat and timer ensure that the temperature never rises above the setting and the transparent glass door displays the dehydrated food for further monitoring.

The innovative Two-Stage Sequential Temperature-Timer feature works in two modes to kickstart the dehydration process so that you will spend less time and effort to create your favorite nutrition-packed raw recipes. Just set the Sedona to the Two-Stage Sequential Temperature-Timer and watch it run in “Fast” mode of up to 155°F for the first few hours, then automatically switch down to “Raw” mode of 118°F or less for the remaining dehydration time. The TST feature ensures that the temperature of the food does not go above the desired level, and results in nutrition-packed dehydrated recipes every time.

FEATURES

- All-Digital Controls & Display
- Two-Stage Sequential Temperature-Timer (TST)
- Dual Fan Technology
- Energy Efficient Operation
- Glass Window
- Elegant Stainless Steel Handle
- Internal LED lights
- BPA-Free body and trays

Humio™ for health!

Dry and heated air is often the cause of many physical discomforts such as nosebleeds, congested sinuses, dry nose, throat, lips, and itchy skin. Also, when air is left untreated it can increase the risk of static electricity, cracked furniture, flooring, cabinetry, and peeling paint or wallpaper, which ultimately leads to costly household repairs. With the Humio you can protect your family and home by improving the air quality one room at a time.

Humio is elegantly designed to offer a soothing and relaxing ambience of shaded colors, which softly illuminates and adds style to any room's décor. Relax and enjoy the soothing lighted effects as Humio rotates from shades of red, blue, and green.

Compared to vaporizers which boil water and release a warm steam making a room feel muggy if overused, Humio releases a cool mist which can be used all day without interruption and discomfort also eliminating the risk of burn to young children. Plus, there are no cumbersome filters to replace which lead to added cost.

FEATURES

- 360° Rotating Mist Outlet is designed to easily change the direction of the mist. Covers between 80-100 square feet
- Removable neck, unscrews for easier cleaning and can be used as a handle when transporting the water tank for refills
- Half-gallon water tank, stores up to 2L (.5 gal) of distilled water for up to 10 hours of use per tank
- Cleaning Brush is neatly nested in the base for simple storage. Use to clean Humio as needed
- Positioning Points identifies the correct position where the water tanks rests on the base
- Easy Push Buttons to adjust Humio to your desired setting with the touch of a button. Each function can operate independently or can be used simultaneously
- Enjoy a cool aromatic mist which not only softens the air but stimulates the senses. Aromatic Oils with Humio: add your favorite essential oils to the oil sponge, slide the oil compartment into place, add water to the Humio and turn it on
- 1 Year Warranty

Aromatherapy Compartment

Motor Base Interior

The elegantly easy way to make fresh, homemade vegan plant milks using nuts and seeds, and even hot soups!

With Soyabella, you can make fresh milk from nuts, seeds, grains, and beans in your own kitchen. Soyabella makes delicious drinks like fresh soymilk, almond milk, rice milk, and cashew milk in as little as 15 minutes. And for raw vegans, Soyabella makes delicious raw plant-based milks in seconds! Soyabella is also great for making delicious puréed soups and breakfast cereals, like split pea soup, butternut squash soup, and oatmeal. Soyabella can even grind coffee beans and other dry ingredients with its convenient milling accessories.

Soyabella is extremely convenient with different program settings that let you easily control the temperature and grinding time with a single touch. Soyabella's multiple attachments also allow you to create a cornucopia of recipes without difficult cleaning. Unlike other nut and seed milk makers, Soyabella does not have an exposed heating coil, but instead features a safely hidden heating element inside its stainless steel boiling chamber— offering easier cleanup and added safety. Soyabella's advanced safety features also prevent overflows, dry heating, and overheating for safe and reliable operation.

Soyabella is the sleek and elegant nut and seed milk maker that is as pleasing to the eye as the final recipe is to the body.

Make your own homemade, dairy-free plant milk using just about any kind of nut, seed, grain or bean!

SOYABELLA ACCESSORIES

Make probiotics-rich yogurt with the Yolife® yogurt maker!

The fast and easy way to make fresh yogurt at home. In just 8-12 hours, Yolife can make nutritious yogurt from milk or soymilk with the convenient glass containers, that are included. Or, you can choose to use your own larger containers to make up to 80 oz. of yogurt at a time for the whole family. Simply add milk or soymilk, active cultures, and your favorite flavorings to make delicious and creamy yogurt at home. Yolife maintains the optimal environment for the active cultures to quickly turn your milk or soymilk into nutritious yogurt filled with beneficial probiotics.

Yolife comes with seven convenient 6 oz. glass jars so you can have fresh yogurt every day of the week. Unlike other yogurt makers, it also comes with a large cover so you can use your own larger containers for making up to 80 oz. of fresh yogurt at a time. That means you can use your glass storage jars, food processing containers or other containers to make your fresh yogurt. Yolife can even make yogurt inside Tribest Personal Blender blending containers – so you can make your yogurt, add fresh or frozen fruit, and instantly whip up a delicious blended smoothie.

FEATURES

- Yolife comes complete with seven 6 oz. glass jars to make creamy and delicious yogurt
- Time Indicator to remind you when your yogurt will be ready
- Use your own glass containers to make larger batches
- Yogurt made fresh in Yolife can contain much higher amounts of active cultures than store-bought yogurt that's been sitting on store shelves
- 5 Year Warranty

Use with vacuum bags up to 12" wide

The simple way to Sous Vide at home. No experience necessary.

The Tribest Sousvant Sous Vide Circulator is the easiest way to bring gourmet restaurant results into the comfort of your own kitchen. Experience the intense flavor and luscious textures that sous vide brings to even the simplest of recipes, like snappy marinated vegetables and rich-flavored soups. The Tribest Sousvant combines the precision temperature control of immersion circulators with the ease of use of all-in-one water ovens. The all-in-one construction means that you will never have to struggle with any plastic wraps, ping-pong balls, or cutting holes in plastic. You get easy precision cooking with no DIY needed.

The Sousvant's lightweight removable carafe comes with built-in handles for easy filling and cleaning. The carafe's clear sides and removable lid ensures that you do not lose water through evaporation while still being able to track cooking progress at a glance. Its extra-large 3 gallon capacity can hold enough water for your largest recipes while taking up surprisingly little space.

The Sousvant's powerful 1000W circulation system rapidly heats water to your desired temperature and ensures that temperatures stay even all throughout the cooking carafe. The user-friendly digital controls make it ridiculously easy to set and hold temperatures to a tenth of a degree. The bottom-fed circulator allows you to use only the amount of water that you need. Just place your food into the carafe and cover it with water. There are no minimum or maximum fills lines to worry about. All you get is maximum precision control with minimum set up or effort.

SPECIFICATION

Model #SV-101			
Heater	1000W	Tank Capacity	12 quarts
Circulation	12 LPM	Measurements	7.5"L x 11.5"W x 15.5"D
Warranty	2 years	Weight	10 lbs.
Temperature	95° F - 194° F (35° C - 90° C)		

SV-101 ACCESSORIES

- Sousvant Rack #SV01 (Optional Accessory)

FEATURES

- Beautiful, sleek, all-in-one design
- Removable carafe makes it easy to fill and remove water
- Transparent carafe lets you monitor the cooking progress without opening the unit
- Removable lid prevents evaporation and helps regulate precise temperatures
- Powerful 1000W built-in circulation system rapidly heats water to desired cooking temperature to 0.1 degree Fahrenheit without the need to worry about minimum/maximum fill levels
- All-digital display is user-friendly and foolproof with precise temperature controls for perfect results every single time
- Built-in safety indicator warns user if power has been interrupted and food may be unsafe for consumption
- Sleek, all-in-one design does not require additional containers, immersion circulators, unnecessary installation, or DIY jobs
- Compact design allows for extra-large 3 gallon capacity that handles your largest cooking jobs without taking up all the kitchen space
- Quiet and Energy-efficient operation
- Easy clean-up – No messy pots and pans. Just empty and wipe down the carafe with a soft cloth
- Saves money – Tenderizes inexpensive cuts
- Insulated housing is much safer than using immersion circulators
- More nutritional value – added nutrients and juices are preserved in vacuum sealed bag
- 5 Year Warranty

Energize your water, energize yourself!

Your body is comprised of up to 60% water. After oxygen, water is the most basic need for human life. It is easy to see why drinking water is just as important as breathing the cleanest, freshest air and consuming the healthiest foods. Water is essential in health and vitality. On a cellular level, water is responsible for getting nutrients into your cells. It is the means by which we flush toxins and metabolic waste from our bodies. It is even essential in how our brain and nerves communicate throughout our bodies. By drinking water processed through the Duet you are enhancing your body's ability to maintain balance.

The quality that gives water its "life" and energy is its structure- the specific hexagonal ordering molecules forming a coherent matrix capable of faster intracellular movement and more rapid information exchange. Many scientists believe that by maintaining the liquid crystalline properties of water within our bodies helps support vibrant life and longevity.

The Duet works by utilizing the natural spiral movement found in nature. Nature uses vortices (formed as water moves), electromagnetic fields (from the Earth and her rocks and minerals), and "salts" (minerals in ionized form) to create water's liquid crystalline state- structured water. The Duet Water Revitalizer uses those same natural forces by spinning water (vortex) within a magnetic field while releasing tiny amounts of minerals from the basket in the base of the pitcher. This process returns water to its living, liquid crystalline state with high levels of oxygen and vital energy.

FEATURES

- Easy to use, simply plug in the machine, fill with water, choose your time setting, and watch it work
- 3 Settings allow you to energize your water to a personal level of preference
- Helps purify water*
- Also useful for plants and animals, all biological organisms can benefit from living, structured, and energized water
- 5 Year Warranty

*The Duet is not intended as a water purifier. Although it will reduce the amount of chlorine and fluoride in municipal water (as the water spins), it is not intended as a water purifier. It is still recommended to use the best water you have.

SPECIFICATION

Raw Tea Kettle®

Tribest Glass Electric Kettle

Heat water up to your favorite temperature

The Tribest Raw Tea Kettle is not your ordinary kettle. The Raw Tea Kettle has a glass body with a BPA-free plastic outer layer that protects you from burns when the kettle is hot. Along with its double-walled glass body, it has a large capacity of 1.7 liter for multiple servings. The Raw Tea Kettle has preset buttons that allow you to use the kettle to your specific needs.

Finally, for raw foodists, there is a raw temperature mode that will heat liquids to the raw temperature of 115°F (46°C). Use the Raw function when making raw hot chocolate and enjoy a truly warm cup of raw hot chocolate, without the hassle of using a high-speed blender. There is no guessing game involved when using the Raw Tea Kettle because the Raw function ensures the water to warm up to a perfect raw temperature of 115°F (46°C).

The Raw Tea Kettle features a mesh filter on its spout that will filter out any solids that may come from loose tea leaves. Press the Keep Warm button to keep your liquids warm for up to 6 hours!

FEATURES

- Double-walled glass container
- 1.7 Liter Capacity
- Precise Temperature Presets (Coffee, Black Tea, Green Tea, and Raw)
- Boil-Dry Protection

Choisons® V-Slicer™

Tribest Precision Standing Mandoline

Big prep? Cut down on prep time!

Cuts and injuries are a common occurrence when using a mandoline slicer, but the Choisons V-Slicer is designed to offer superior convenience and safety, while still providing consistent and swift slicing of produce. Featuring an upright and standing position, the V-Slicer makes for a convenient and easy-to-use mandoline slicer that helps create even, uniform slices of adjustable thickness. The Japanese design and forged stainless steel blade mirrors the sharpness of a Santoku knife, while the v-shape of the blade helps to center and cut through produce with a straighter cut than a standard blade would. Two user protection features- the chute box Finger Guard and Large Pusher- make this the safest mandoline on the market. At the same time holes at the back of the blades helps prevent suction and keep the produce in motion for a smooth push and pull action, slicing produce safely and efficiently.

SPECIFICATION

Model #CH-VS200			
Type	Standing Mandoline	Weight	5.8 lbs.
Measurement	16.3"L x 6.3"W x 12.5" D	Warranty	1 year

FEATURES

- Rubberized Feet provides stability and support across all surfaces
- Innovative v-shaped blade provides an easier time slicing
- Chute Box helps to perfectly position produce for even and straight cuts
- Large Pusher protects fingers during use, while providing even and equal pressure distribution
- Small Pusher and Divider provides superior pressure distribution for smaller sized produce
- Extension Legs allows for the use of larger bowls or containers to be utilized
- Finger Guard provides superior protection, preventing stray fingers from getting anywhere near the blade
- Grooves on the platform and holes on the blade prevent the formation of a vacuum during the slicing process
- Removable Blade is convenient for cleaning, sharpening, and replacement
- Thickness Adjusting Platform easily adjusts the thickness of slices from paper-thin to 8mm slices
- Julienne Attachments are optional. 2mm/3mm/4mm attachments available
- 1 Year Warranty

V-SLICER ACCESSORIES

- 2mm Julienne Attachment #CH-VS202S

- 3mm Julienne Attachment #CH-VS203S

- 4mm Julienne Attachment #CH-VS204S

- Stainless Steel V-Blade #CH-VS201S

The safer and fresher way to prepare, serve, and store your favorite foods!

Store your favorite foods and ingredients with GlasLife airtight food storage containers. GlasLife storage container lids feature a unique airtight silicone seal and snap-to-lock lids that prevent air from entering the container during storage allowing food to stay fresher longer, stopping drips from spilling and odors from escaping. With GlasLife, storing soups, salads, poultry, fruits, and aromatic ingredients have never been easier.

Since GlasLife containers were designed for everyday use and are made of clean heavy-duty tempered glass that is lightweight yet strong and durable, identifying what's stored is no longer left to guessing, making organization easier and preparation faster. Additionally, GlasLife's storage lids are BPA-Free.

GlasLife's amazing nest design saves important cupboard space and tucks away nicely and neatly during non-usage. GlasLife is also perfect for transportation yet attractively inviting to serve guests pre-made dishes.

FEATURES

- GlasLife containers neatly nest into one another with their lids attached for optimum convenience and organization
- GlasLife containers are made of heavy-duty stain resistant tempered glass that is lightweight yet strong and durable
- Aside from being used for storing your favorite foods and recipes, GlasLife can be used to reheat leftovers in the microwave, store frozen foods in the freezer, and can also be cleaned using a dishwasher
- GlasLife's plastic snap locking lids with silicone seals are made of BPA-Free materials
- Made with tempered glass
- Dishwasher, microwave, and freezer safe
- Easy snap locking lids with airtight silicone seals

Create Limitless Selections of Flavored Snow In A Matter Of Seconds!

Snowpop Flavored Snow Machine is one of a kind in the way that it easily produces delicious, flavorful, soft snow straight to serve. It eliminates the freezing, handling of bulky flavored ice blocks and the conventional shaving process altogether. The Snowpop works with a wide range of base liquids including juice, water, soda, alcoholic beverages, milk, and even yogurt to create sensational flavored ice of snow-like consistency and texture that delightfully melts in your mouth. The Snowpop is sure to make any business distinctive by creating limitless selections of flavored snow recipes with just a single, simple machine.

Enjoy Soft-Serve with Perfect Consistency and Flavor

The Presidential Soft-Serve Machines are versatile: Able to process low to nonfat ice cream or yogurt, gelato, frozen custard with perfect consistency. Standby function to ensure safety and hygiene of the ice cream mix. Detachable cylinder for easy wash. Simple operation and easy to read panel. Intelligent fault detection. Silent operation.

Create Rawfood Renditions of your Favorite Dishes by Dehydrating

The Tribest Sedona Supreme is the world's first full-featured commercial large-capacity digital dehydrator with a reusable air filter. Use all 9 trays with the advanced dual-timer TST feature to get the best results for all your dehydrating needs. From fruits and vegetables, to meats and crackers, the Sedona Supreme's central fan technology ensures even airflow and rapid dehydration. The Sedona Supreme allows you to set the temperature and timer using its user-friendly all-digital controls. Precision dehydrating has never been easier.

@papayaking New York City's 1st ever juice Bar! Since 1932 Papaya King has been serving up Original recipe Tropical Drinks and fresh squeezed juice! #making healthy taste great since 1932! Now introducing the cold pressed Drink line powered by @tribestlife greenstarpro

@juicefeaster Day 70 of 105! Juice Feast / Solid Food Vacation! 35 days to go! Enjoying cantaloupe - lime juice today!

@pureveganfood Want to get lean, go green. Eat your greens, juice them, blend them, whatever works for you to get them in. Just do it.

@eatsby.brooke Happy monday everyone! today's topic is celery juice! every morning we use the @tribestlife green star elite to make it, and it should be the first thing you put in your body when you wake up! you can also combine it with cucumbers, apples, or really any other produce you want, but drinking it straight up is best!

COLD PRESS VERTICAL SLOW JUICER

Rise and Shine to Cold Press Juice in Minutes!

Introducing the first product from Shine Kitchen Co., our cold press vertical juicer. Compact, accessible, and easy to use this product fits easily into any lifestyle. This innovative juicer breaks down the barriers to health, designed to help you Shine bright!

Powerful Cold Press

Low RPM with 3-stage metal reduction gears allow for easy juicing of hard and soft produce.

Fits Any Kitchen

Fits in under 5 inches of space on the countertop.

Fits Any Budget

Retail pricing of \$149.95 makes this an easy starter juicer.

100% BPA-Free

Juices celery, greens, and more in a clean way for maximum health benefits.

Simple & Sleek

It's easy to use and simple to clean. Enjoy a fresh juice from start to finish in under 10 minutes.

COLD PRESS VERTICAL SLOW JUICER

SJV-107

We at Shine Kitchen Co. believe that your health is the most important investment that you can make in your future. The choices that make today ring out your tomorrows. We help you seize today by making easy to use, affordable tools that fit your fast-paced life and style. No matter where you are in life, it's never too early to rise and get your Shine on.

The Shine Cold Press Juicer SJV-107 has key beneficial upgrades over other entry-level vertical juicers in its price range.

No more leaks: Triple-sealed drive shaft.

The thick triple-sealed silicone ring of the SJV-107 prevents the annoying juice leaks that can plague other juicers. Additional seals at the motor housing and gear box stop accidents before they get bad. Juice leaks are messy and can harm the internal electronics of your juicer. Stop the leaks and the resulting mess before it happens.

Get rid of those annoying jams: Increased motor torque.

The SJV-107 motor has more torque than its competitors. More torque means that you can juice hard produce with less jamming and reversing. Get rid of those annoying jams and make juicing enjoyable again.

You can't break me: 3-stage metal reduction gears vs. 2-stage plastic.

The 3-stage reduction gears in the SJV-107 are made out of metal for durability. The extra stage means less strain on the moving parts. You should not have to buy a new juicer every year. Break out of that cycle of waste with a high-quality, durable yet economical machine.

Don't be a burn out: Built-in Motor Cooling Fan.

The SJV features a built-in Motor Cooling Fan that is usually only found in expensive, top of the line juicers. The Motor Cooling Fan prevents the motor burn out that you see in competing juicers. Don't be a burn out.

AUTOMATIC POUR OVER COFFEE

Enjoy the Perfect Cup of Pour Over in Your Own Kitchen

Automated Pouring System

Takes the labor out of pour over coffee by automatically pouring slow spirals of hot water for the perfect bloom and brew.

Pre-Measured Fill Lines

Takes the guesswork out of the Golden Ratio so that you can enjoy the perfect cup in under 5 minutes.

Portable Battery Operation

Lets you get your Shine on wherever life takes you.

The patented Automated Pouring System makes it easy to enjoy the perfect pour over coffee, without all the labor and guesswork.

AUTOMATIC POUR OVER COFFEE

SCH-150

Features

POUR OVER 101

Simple Steps to the Perfect Cup

STEP 1: Scoop Your Coffee

Use your pre-measured scoop to add ground coffee to a #1 cone paper filter over your filter basket. One scoop per cup of coffee desired, up to two cups. Turn on the Autopour and get ready to relax.

1 Scoop of Ground Coffee
Per 1 Cup of Water

STEP 2: Bloom & Brew

Add hot water to the Water Reservoir. The handy fill lines make it easy to bloom and brew up to 2 cups of coffee.

STEP 3: The Perfect Pour

The rotating spouts pour slow and steady spirals of hot water with precision. The optimal flow rate extracts a full-flavored coffee without the bitter notes. This automatic pouring system takes out all of the guesswork and labor. You get a perfect pour over with none of the work.

STEP 4: Get Your Shine On!

Tip the glass carafe into your favorite mug and power your day the Shine way. Rinse. Repeat.

ELECTRIC SPIRALIZER

Twirl, Twist, and Toss your next vegetable dish with fresh vegetable noodles!

The Shine Spiralizer helps you boost nutrition and go low carb by making it easier to add fun and fresh vegetable noodles into your healthy diet. Create delicious high energy recipes that help you get your Shine on.

No More Frustrating Clips

Unlike competing models, the Shine Spiralizer features a unique vegetable holder that grips your produce from the outside. No more frustrating slips!

ELECTRIC SPIRALIZER

SES-100

We at Shine Kitchen Co. believe that your health is the most important investment that you can make in your future. The choices that make today ring out your tomorrows. We help you seize today by making easy to use, affordable tools that fit your fast-paced life and style. No matter where you are in life, it's never too early to rise and get your Shine on.

Slicing Attachment

Choose between 4 popular sizes for your vegetable noodles - Fettuccini, Spaghetti, Ribbon, and Angel Hair.

Motor Base

Does all the hard work so you don't have to. The motor base powers through your veggies with precision and makes spiralizing quick and easy.

Large Container

Catches over 4 servings at a time for simple meals in minutes. The catch container can be easily transferred to the refrigerator for storage.
