

KOHLER Kitchen Accessories

The **Touchless Foaming & Liquid Soap Dispenser** is a hygienic and convenient solution for the kitchen or bathroom. The only residential option that works with foaming or liquid soap, this no-touch dispenser also helps to prevent the spread of germs in the bathroom and cross-contamination in the kitchen with its 20-second timed light for healthy hand-washing, the Centers for Disease Control and Prevention recommendation for hand-washing time.

The **Lift Dish Rack**'s versatile design fits a wide range of items. It's large and sturdy to accommodate pots and pans that don't go in the dishwasher, plus it has a fold-down corner utensil band to stay organized as well as an extendable rack to delicately protect wine glasses. It drains over the sink rim and is collapsible for compact storage in a cabinet when not in use.

The **Wine Glass Drying Rack** holds 6 standard-size or 4 over-sized, 10-inch tall wine glasses. The pillow pattern on its base promotes airflow for effective drying. This rack folds away for easy storage when not in use.

The slender design of the rack makes it perfect to use to organize stemware in cabinets.

The **Kitchen Sink Utility Rack** is a universal product that improves workflow in the kitchen and helps to keep clutter off surfaces. It expands 3 inches to fit most sinks (14.6 – 17.6 inches). It holds utensils and cleaning tools, and doubles as a drying rack for cups and mugs. It has a removable soaking cup and rail for drying dishcloths.

The weighted **Paper Towel Holder** is designed for easy one-handed tears without tipping or unraveling. The stepped base helps prevent towels from unrolling and the tension loop controls the dispensing while the two-pound weighted base prevents the holder and paper from tipping over.

The **kitchen squeegee** makes water cleanup around the sink easy. It has a squeegee on one side for wiping wet messes into the sink and nylon bristles on the other side for sweeping up dry messes. It hangs on the edge of the sink to keep it accessible and the ergonomic design is weighted for balance and comfortable to hold.

The **brush caddy** holds dishwashing brushes, sponges, and other cleaning tools in easy reach. Water drains through to the container below to help the cleaning tools dry. It is easy to take apart and is dishwasher safe.

The **sponge caddy** holds a sponge, soap bar and other cleaning tools in easy reach. It also has a container below to help the cleaning tools dry. The removable stainless steel wire holds a sponge up for faster air drying. It is easy to take apart and is dishwasher safe.

The **disinfecting wipes dispenser** offers an aesthetically pleasing enclosure for wipes canisters with one-touch access to disinfecting wipes that are essential for kitchen clean up. A sealed top keeps wipes from drying out and a single wipe dispenser feature ensure that one wipe comes out with each pull.

The **soap dispenser** is an eco-friendly refillable 10 oz. dispenser that works with soap, lotion or hand sanitizer. Its ergonomic spout design enables easy, one-handed pumping. Its grip pad on the base holds the dispenser steady.

The **dish scraper** features hard and soft edges, a conforming silicone edge safe for nonstick pans and a durable nylon edge – great versatility for any type of scraping situation from dishes to countertops.

The **flexible kitchen mat** and **large silicone drying mat** are very versatile in and around the sink – drying dishes, grip over the sink saddle, holding plates in the sink basin, even as a trivet. The large silicone drying mat is ideal for use as a drying large pots and pans or even as a primary drying mat. Both feature a flexible design that rolls up for storage. They are heat resistance to 500 degree F to protect the countertop or table from hot pans and serving dishes. The mats also dishwasher safe
