## How it Works

Brimming with a combination of organic hemp and natural grains, the CBD Heat Pack is easy to use and ready in minutes. Microwave heating converts the organic hemp into useful CBD and kicks the heat retaining qualities of the flaxseed and wheat into high gear. Treat yourself to this unique product combining the healing impact of CBD with aromatherapy and therapeutic care. Thoughtfully designed, carefully handcrafted.

FABRIC/COLOR	SKU	UPC	UNIT \$	CASE \$	CASE PK	CASE WT	MOQ	MSRP \$	BLEND
