MORE THAN 50 YEARS LOOKING TOWARDS THE FUTURE

There is only one path: QUALITY. And there is only one stage: THE FUTURE.

At ROLSER we have spent nearly fifty years concentrating on the future, proposing avant-garde solutions for the ever-changing scenario which is our World. Since the very beginning, we have designed products while thinking of their evolution, their following improvement.

Products which are alive, which grow in their design, features, comfort but especially in their functionality. Trolleys which years ago had limited and specific uses, have nowadays become yet another part of our day-to-day life, they are versatile allies which also fill our moments with design and style.

Always looking to the future, yes, but without forgetting our origins, our experience accumulated over more than 40 years, which has led us to firmly invest in QUALITY as the backbone of our company. Today, time has proven us right and from the main head offices in PEDREGUER, ROLSER reaches more than 60 countries, exporting the MADE IN SPAIN brand to the five continents, presenting the markets with continuous and eye-catching novelties.

QUALITY CONTINUES TO BE OUR MOTIVATION

Tendencies change, as do fashions. Products are reinvented; their shapes and sizes vary... They become lighter, incorporating new materials and fabrics and certain colours prevail upon others.

At ROLSER we see this; we live it each day with our products. Everything changes. But Quality remains. Because at ROLSER we continue to be motivated by the same excellence in efficiency both in the processes as well as in the finishes and this is proven by the international certifications UNE-EN ISO9001, UNE-EN 14183 and UNE-EN 131 granted by entities such as AENOR and TÜV.

Seals and recognitions which renew our commitment to our clients and guarantee the quality of our products.

Joy

JOY CHASSIS

Rolser presents his "A-Class". Being able to adapt to our times, without giving up any benefits of a great shopping trolley. Joy introduces the most developed technology, with a fresh design to be able to be the most compact of our brand. JOY is the youngest shopping trolley of ROLSER. It uses the most practical and light materials as aluminum, expanded EVA and high quality copolymers. With a minimalist design but being able to overcome the largest challenges of a great shopping trolley.
